

**OUR
NEW
COMBO**

**STACKED
WITH BENEFITS**

Ready for the ban on disposable single use plastics?

Let us help you to be compliant with new Suma PolyWash and Suma PolyDry, specifically developed in our labs to meet the challenges of washing and drying reusable plastics

Try our new combo stacked with benefits All your reusable plasticware cleaned and dried, fast and hygienically

Suma PolyWash

- Effectively removes dried in soils – leaving plastic ware sparkling clean with no residual smell
- Reduces the need for costly rewash
- Increases lifespan of your reusable ware

Use together to reduce plastic waste while maximizing:

- Hygiene
- Speed and efficiency
- High quality results
- Customer satisfaction
- Profitability

Contact your local Diversey representative to try out our new combo Suma PolyWash & Suma PolyDry.

Suma PolyDry

- Dries plastic ware within minutes, mitigating hygiene risks
- Optimizes productivity as all items can be stacked immediately
- Reduces your rinse cycle time, saving energy

Here at Diversey, we always look at European directives and trends to be able to offer our customers safe, sustainable, highly effective solutions which ensure full compliance with upcoming legal requirements. In line with the Single-Use Plastics (SUP) Directive (EU) 2019/904, our experts recommend Suma PolyWash and Suma PolyDry for every type and shape of reusable ware, no matter the soil or smell.
